⁸ Penicillinase-Producing Gonorrhea	0	0	0	0
Lymphogranuloma Venereum	0	0	0	0
Nongonococcal Urethritis (NGU)	56	26	339	277
Pelvic Inflammatory Disease (PID)	0	26	6	172
Syphilis	14	5	125	66
Congenital Syphilis	0	0	1	0

TO REPORT DISEASES BY TELEPHONE:

Animal bite consults: Al Piercy 704.336.6440

General Diseases including Hepatitis B: • Nancy Hill 704.336.5498 • Jane Hoffman 704.336.5490 • Beth Quinn 704.336.5398 • Shannon Gilbert 704.353.1270 • Freda Grant 704.336.6436

Sexually Transmitted Diseases and HIV/AIDS: Carlos McCoy 704.336.3355 • Lorraine Houser 704.336.6438
Regional Office 704.566..8990

Suspected Foodborne Outbreaks: Bill Hardister 704.336.5533

Tuberculosis: Kristi McCray 704.432.2496

To obtain a supply of the North Carolina Communicable Disease Report Cards: 704.336.2817 • 919.715.7404

1. Figures subject to change, diseases **bold, italic and an asterisk*** are reported **immediately, bold & italic** within **24 hours** and 7 days for all others diseases.
2. This number reflects the number of AIDS cases reported this month to the North Carolina Department of Health and Human Services. As of October 1996, AIDS cases in North Carolina are attributed to year of report. The **cumulative** number for AIDS cases is **2,064** in Mecklenburg County and **14,905** in North Carolina as of June, 2005. The **cumulative** number of AIDS cases reported to the CDC is **929,985** in the United States as of December 31, 2003. AIDS case reporting began in 1981 in the United States and in North Carolina in 1984.
3. The **cumulative** number for HIV Infection (not AIDS) is **4,963** in Mecklenburg County and **28,394** in North Carolina. This figure is based on reports of confidential testing done between October 1990 – June, 2005. Please note a change reflecting recent changes in North Carolina reporting, "HIV Disease" refers to all people infected with human immunodeficiency virus, with and without an AIDS defining condition. Previously data were reported separately for HIV and AIDS. Currently AIDS cases are subset of HIV disease. AIDS case reporting began in the United States in 1981 and North Carolina in 1984. HIV infection reporting began in North Carolina in October 1990 and HIV disease reporting in 2001. While all states report AIDS, all states do not report HIV infection or HIV Disease. As a consequence, national numbers for HIV disease are not available.
4. Reportable as of February 2005
5. Rabid animals--none
6. One case of Rocky Mountain Spotted Fever deleted
7. Reportable as of February 2005
8. Morbidity cards do not always indicate Penicillinase-testing results. The PPNG number is included in gonorrhea total
9. ** 5/05 hepatitis carriers (26) not added to total for the year and 10/05 adjustment made.
